

NIET RAG Database Guide

Recommended Database Structure:

Columns: id, College, Category, Question, Answer, Source.

Suggested CSV Columns:

college_name, college_type, approval, accreditation, ranking, established_year, location, course, specialization, duration, eligibility, entrance_exam, annual_fee, hostel_fee, seat_intake, average_package, highest_package, placement_percentage, top_recruiters, faculty_student_ratio, library, laboratories, sports, wifi, hostel, transport, canteen, medical, scholarship, admission_process, important_dates, website, source, last_updated.

Additional Knowledge Files:

college_profile.pdf, admission_brochure.pdf, placement_report.pdf, fee_structure.pdf, hostel_information.pdf, scholarship_policy.pdf, academic_calendar.pdf, course_curriculum.pdf.

Folder Structure:

NIET_RAG/data/csv (college_info.csv, faculty.csv, placements.csv, fee_structure.csv, hostel.csv, scholarships.csv, admissions.csv), data/pdf (Prospectus.pdf, Placement_Report.pdf, Admission_Brochure.pdf, Fee_Structure.pdf, Hostel_Brochure.pdf, Academic_Calendar.pdf), images/.

Example Q&A::

Where is NIET located? -> Greater Noida, Uttar Pradesh.

Is MCA available? -> Yes.

Duration of MCA? -> 2 years.

Hostel available? -> Yes, for boys and girls.

Top recruiters? -> Refer to latest placement report.

Admission process? -> Follow official admission guidelines.

Metadata Example:

college: NIET Greater Noida, course: MCA, category: Placement, year: 2026, source: Official Placement Report.

Best Practice:

Use only official sources: institute website, admission brochure, fee structure, placement report, accreditation documents, and university notifications.
